Who We Are

Trees Shadow Agricultural was founded in 1989 and is a leading company in the field of garden design and selling trees and flowers in the Eastern Province of Saudi Arabia. The farm is located in Abu Maan, covers an area of 60,000 square meters, and is close to King Fahd International Airport. The company has over 35 years of experience in garden design and provides its services to a wide range of clients, including individuals, businesses, and governments. The company is committed to providing services that meet the needs of customers and uses the latest technologies and methods in garden design.

OUR MISSION & Values

Trees Shadow Company believes that trees are more than just plants, they are a source of life, beauty, and hope. We believe that trees play an essential role in protecting the environment and improving the quality of life. Therefore, our mission is to provide high-quality trees to all of our customers, and to help people understand the importance of trees and how to preserve them.

Our Vision

A world filled with trees, where people enjoy a better quality of life.

Our Quality

We are committed to providing high-quality trees to our customers. We choose trees carefully from trusted growers and follow responsible farming practices to ensure that our trees are strong and healthy.

Quality of Our Services

We are committed to providing high-quality services to our customers. We provide advice and guidance on choosing trees and caring for them. We also provide after-sales service to ensure that our customers are happy with our products and services.

Quality of Our Products

We are committed to providing high-quality trees that meet the needs of our customers. We carefully select trees from reliable sources and ensure that they are in good condition. We also test trees regularly to make sure they meet our standards.

03

Our Services

Agriculture is one of the most important economic activities in the world, providing food, fiber, and other resources for humanity. However, agriculture can also be a challenging and costly endeavor.

That's why it's important to choose an agricultural company that offers high-efficiency agricultural services.

1 Landscaping Projects

We provide planning and execution services for agricultural projects, such as crop cultivation, garden creation, and dairy farm development.

2 Irrigation Design

We provide services for the design, installation, and maintenance of irrigation systems, including drip irrigation systems, sprinkler irrigation systems, and flood irrigation systems.

3 Garden Maintenance

We provide garden maintenance services, such as pruning trees and shrubs, removing weeds, and replanting plants.

Our Consulting

Agriculture is one of the most important economic sectors in the world, providing food for humans and animals, contributing to job creation, and protecting the environment. However, agriculture faces a number of challenges, including pests and diseases, which can lead to significant economic losses.

Trees Shadow Company provides consultancy services in agriculture, pest control, and plant disease diagnosis, to help farmers achieve the highest possible crop yields and protect their crops from pests and diseases.

Our services include the following:

Agricultural Consulting

We provide comprehensive agricultural consulting to farmers, including the selection of appropriate crops for the region, the appropriate agricultural methods, fertilizers, and pesticides, irrigation and fertilization practices, and pest and disease management.

Pest Control

We provide integrated pest control services, which include the use of preventive and therapeutic methods to reduce the spread of pests.

Plant Disease Diagnosis

We diagnose plant diseases using the latest techniques and equipment, and provide recommendations for their treatment.

Our Team

Our team of experts has extensive experience in agriculture and pest control, and are able to provide high-quality consultancy services to farmers.
